**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-5 and 7-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art as shown in instant Figures 1-3 and disclosed in paragraphs 3-8 of the instant specification in view of Johnson for reasons of record.

2. Applicant's arguments filed February 22, 2007 have been fully considered but they are not persuasive. Applicant argues that the applied art does not teach the instant fastening structure. Such is not agreed with. For one thing, the claims recite fixing, and fixing means "to fasten or place securely", which is exactly what the bolts in Johnson do. Also, fasten is defined as "to attach firmly to; to join". The definitions for these terms do not preclude motion between the elements, but merely that they are joined or fastened in a secure manner within the platen. Applicant cannot argue that the bolts don't place the die portions "in a secure manner", and hence it is submitted that the instant structure is indeed met by Johnson. It is noted that the instant claims do not preclude the aspect of the stamper being fixed in a manner so that it can slide. It is also rather clear that fastener holes extend through the platen and into the die portions of Johnson. The aspect of the stamper thickness has already been addressed. Applicant's comments with respect to claims 13 and 15 are noted. However, it is respectively submitted that the location of the movable core and integral molding device would have clearly been within the skill level of the art—ie, as pertaining to such being on the stationary plate or

the movable plate. In other words, it is within the skill level of the art to place these on whichever platen deemed desirable.

**3. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mathieu D. Vargot whose telephone number is 571 272-1211. The examiner can normally be reached on Mon-Fri from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Johnson, can be reached on 571 272-1176. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
